Direct Payment to Providers

- Medicaid issues direct payment to eligible Medicaid providers for services rendered to eligible Medicaid recipients upon submission of a payable claim to the Medicaid fiscal agent.
Provider Responsibility

• When presenting a claim for payment under the Medicaid program, a provider has an affirmative duty to:
  – supervise the provision and be responsible for goods and services claimed to have been provided;

• when required by federal or state law, the provider rendering the service is actively licensed or certified to provide the service.
• are Medicaid-covered and medically necessary.

• are of a quality comparable to those furnished to the general public by the provider’s peers.

Provider Responsibility

Providers are responsible for submitting claims for goods and services that:

• are documented by records made at the time the goods or services were provided, demonstrating the medical necessity for the goods or services rendered.

Direct Payment to Providers

• Payments for Medicaid services must be made by direct payment to the provider, except in the following circumstances:
  
  – Payment may be made in accordance with a reassignment from the provider to a government agency or reassignment by court order.
  
  – Payment may be made in the name of the provider to the provider’s Medicaid-enrolled Billing Agent’s address.

Privacy of Recipient Information

• Medicaid providers, including their staff, contracted staff, volunteers and Billing Agents are required to safeguard the use and disclosure of information pertaining to Medicaid applicants and current and former Medicaid recipients as required by state and federal law and regulations.

Bill Agent Compensation

• A provider may retain a third party as a Billing Agent or clearinghouse to submit or transmit claims on the provider’s behalf, if the third party’s compensation for the service is:
  
  – Related to the cost of processing the billing
  
  – Not related on a percentage or other basis to the amount that is billed or collected
  
  – Not dependent upon the collection of the payment

• The Billing Agent or clearinghouse **must enroll** as a Medicaid provider.

• Medicaid and the Medicaid fiscal agent cannot give any information to a Billing Agent or clearinghouse that is not enrolled in the Medicaid program.

• The requirement to enroll as a Billing Agent applies to contracted third parties.

• Employees of the provider who act as Billing Agents or clearinghouses are not required to also enroll as Medicaid Billing Agents.

Enrollment for Electronic Billing Through a Billing Agent

• If a provider uses a Billing Agent to submit claims electronically, both the provider and the Billing Agent must complete and submit signed Electronic Data Interchange Agreements.

Electronic Data Interchange Agreement

• To notify Medicaid a billing agent is allowed to transact business on their behalf, a Medicaid provider must complete, sign, and date the Electronic Data Interchange (EDI) Agreement, Section 2.

• The EDI agreement must be completed regardless of whether the provider bills on paper or electronically.

Electronic Data Interchange Agreement

• The EDI Agreement is a contract that defines the liability for information transferred between the provider and the billing agent as reported to the state of Florida and the Medicaid fiscal agent.

• Under the agreement, both parties are responsible for adhering to claims filing polices and protection of confidential data.
